Subject: [EXTERNAL] Paragraph re: the Folsom meeting

Hello Jackie, Lynn, & Chris,
At the last CAG meeting I mentioned the paragraph that my friend Shirley Connor had written regarding her observations of the Area 40 meeting held in Folsom in July. This was in response to an email from Allen, who couldn't attend the meeting, asking how it went.
Here are her comments:

Thank you so much for the opportunity to share my input. From the standpoint of a person who attended this meeting with a limited understanding of the issue at hand, I'm giving this meeting high marks. The facility was comfortable and accommodating. Chris's opening summation of the situation thus far was concise and easy to follow. The EPA representative also. The Facilitator did a great job managing the question and answer session, and attendees raised a broad range of relevant concerns. There were subject matter experts and related agency representatives available for additional questions. I walked in to this meeting knowing very little and walked out with a good overall understanding of the problem and how the community is working together to overcome it. You should all be very proud.

Thank you,
Janis
